## THE FEAR OF HUMBUG

Prevents Many People from Trying a Good Medicine.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, per-

any remedy claiming to be a radical, per-manent cure for dyspepsia and indiges-tion. Many such pride themselves on their acuteness in never being humbug-ged, especially in medicines.

This fear of being humbugged can be carried too far, so far, in fact, that many people suffer for years with weak indi-gestion rather than risk a little time and money in taithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive fer-ments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the com-mon sense plan of digesting the food eat-en thoroughly before it has time to fer-ment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is

in the stomach. In the stomach.
Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

Just one year ago, after twenty months of actual test among their own patients, some thirty-nine hundred regular physicians expressed their faith in New Treatment for Catarrh, Bronchitis, Pneumonia and Consumption by endorsing It as a cure for these diseases over their own signatures. Immediately following this came the announcement by the different Boards of Health in large cities where the new cure was used, that within the past year there had been a reduction of over thirty (30) per cent, in the death rate from consumption alone. These statements created the most profound sensation among the prefession and public at large, for even the best informed medical men have always claimed that there was no positive cure for such diseases; yet, there was more evidence to come, and this of the most astonishing nature: Inside of twelve months over sixty of the largest advertising specialists in the country had discarded their old treatments and were advertising to cure by inhalation-the most positive evidence which could be given of the great value of the new cure, and

## Herein Lies the Great Danger to the Public.

The owners of this new remedy, in order to show the people that their treatment was entirely different from all others, adopted this phrase in advertising "Cures by Inhalation." Unfortunately, those suffering from disease of the au passages did not understand that "Cures by Inhalation" meant the method of applying the remedy and not the remedy itself; consequently, when others began to advertise cures by inhalation, no inquiry was made as to what remedy it was that cured by this method-a great mistake, which, no doubt,

during the past season, and making it absolutely necessary to state to the public

### The Whole Truth About Inhalation For years it has been known that through inhalation alone could the air pas-

sages in the head, throat and lungs be reached, yet no successful attempt was ever made by the medical profession to cure these diseases by this method, For the Following Reason: Until the discovery of Hyomei no dry air germicide had ever been found which could be inhaled in the air we breathe without injury. Hyomel alone made cures by inhalation possible, without Hyomel all the inhalers in the world would not cure consumption, pneumonia or catarrh. No better evidence of this can be given than the fact that out of the sixty-one inhalers placed on the market within the last

year but two are left, while the use and sale of Hyomei has increased a thou-

sand-fold; thus proving beyond all question that without Hyomel all attempts to cure by inhalation have proven failures. Having made this plain, we would ask you to remember these few facts when in need of a treatment for coughs, colds, catarrh, bronchitis, asthma, pneumonia and consumption,

There is but one way of reaching these diseases, BY INHALATION.

There is but one Dry Air Germichie that can be inhaled—HYOMEI.

There is but one treatment for the respiratory organs which is guaranteed to cure, and your money refunded if it fails-HYOMEI.

Hyomei cured over eighty thousand persons suffering from diseases of the respiratory organs during the past year, and would have undoubtedly saved the lives of thousands more had they but known the truth about inhalation. Hyomet is sold by all druggists, or sent by mail, postage prepaid Price, complete outfit, \$1.00. Trial outfit, Sc. Extra bottles, 50c. Hyomel
